

PROJECT: CLASSICAL ARCHITECTURE

Objective

To discover, recognize, and identify Classical architectural elements in the world around us. Students will create a photojournal documenting examples of Classical architecture in the modern world.

Task

- Find three examples of Classical architecture in your neighborhood and/or in the city in which you live.
- Take pictures of these examples.
- Paste the pictures neatly on paper, 8½ x 11 or larger.
- Create captions for each picture. The caption should describe:
 - what is shown in the picture,
 - where the picture was taken, and, most importantly,
 - the Classical architectural elements seen in the picture.

Groups

Students may NOT work in groups on this project.

Due Dates, Presentation, and Grading

The projects will be due on _____. Projects may be presented in class. Projects will be graded on: having three examples (30%); accuracy of captions (30%); neatness (20%); quality of class presentation (20%).
