

WORLD MYTHOLOGY FINAL PROJECT

Step I: Create a Land

- design a map; color is good
- incorporate important geographical features
- describe climate and weather

Step II: Create a Pantheon

- create at least five gods and goddesses to inhabit your land
- describe and (if you wish) illustrate these deities and their symbols or characteristics
- keep in mind the relationship between myth and geography
- review F6-15 if necessary

Step III: Create a Body of Myths

- make three different myths, following three different themes (flood, creation, apocalypse, monsters, journeys, etc.)
- myths must follow principles we have learned
- myths must utilize your deities and take place in your land

Be neat, detailed, and creative. Those projects which show clear effort will earn top marks. Projects which are of low quality and/or do not include ALL of the components listed above will earn low marks.

DUE FRIDAY, MAY 30th by 9:00 AM.

NO LATE PROJECTS WILL BE ACCEPTED.
